

I am writing in regards to the proposed expansion of low power FM. As I understand it, this may cause our K-LOVE station at 91.1 to be forced off the air. I do not want to see this happen. Our family listens to K-LOVE daily as it is very positive and encouraging and we do not have to worry about inappropriate language being used. If this was replaced by another station (which would no doubt be less family-friendly) it would be a huge loss to not only our family but the community as well. Thank you.
